Dubai residential developer, design-focused. Delivered and launched in Palm Jumeirah, JLT, MBR City, Downtown and Emirates Hills.

DELIVERY

Known for on-time handover, 70/30 and post-handover plans, and a 96% occupancy rate across delivered projects.

DESIGN RECORD

Ellington House, Dubai Hills: best kitchen design, best show home interior, best bathroom design at the 2023-24 International Property Awards.

THE CLAIM

Across 15 recent projects, average capital growth of 50% on studios and up to 69% on 2-beds; Ellington House gross yields of 11.8-13.4%. A broker's claim - verify before it is repeated.

THE MOVE

The first master-planned townhouse and villa community, after villas at The Sanctuary and The Watercrest in MBR City (from ₪5M, 70/30). Handover timed with RTA upgrades including the Latifa bint Hamdan Street extension.

THE CORRIDOR'S PRICES

THE HONEST LINE

Gain is after 2% agency on exit, before other costs. Return on cash = gain over cash deployed before handover (paid-in plus registration). The Dubai door funds more of the price before keys, which is why its return on cash sits lower at the same growth rate.

♦ Growth cases are illustrative, not forecasts. Abu Dhabi's last twelve months were +17.8%. The register decides.

Fifteen minutes decides the lens.

- ◆◆◆ **Documented.** A published report, a developer sheet, a signed rule, a title deed.
- ◆◆ **Reported.** Developer material or research cited second-hand; a method, not a document.
- ◆ **Early.** Aggregator pricing, a pre-launch conversation, a broker claim, a market read. Confirm before you rely on it.
