CALUM MACLEOD

ABU • THREE WAYS TO PLACE D4M • SEPTEMBER 2026

A 3-bed beside the Palm, before the price sheet exists.

THE ISLAND

Palm Jebel Ali is twice the size of Palm Jumeirah: ~110 km of new coastline, homes for ~35,000 families, and the start of a new growth corridor under the Dubai 2040 Urban Master Plan.

PROGRESS

Construction restarted in 2024; first properties planned for delivery Q1 2027. Nakheel has awarded D5bn of infrastructure contracts, including a public access road from Sheikh Zayed Road.

PRICE CONTEXT

On the Palm itself, Nakheel's Palm Central runs from D2.7M (1-bed), D4.3M (2-bed), D7.5M (3-bed); townhouses from D14.9M; completion Sep 2030. A 3-bed at ~D4M beside the Palm is the value entry to the corridor.

MOMENTUM

The June 2026 release built on the strong market response to the October 2025 release.

THE POSITION
