

◆ MODON • HUDAYRIYAT ISLAND • ABU DHABI ◆

WADEEM

What we know so far

Gated villa community • 4, 5 and 6-bed standalone villas • launching now
September 2026 • updated as Modon releases more

Scarcity, in numbers.

Two cities, the same number of people. One of them sold **ten times more off-plan homes** last year. Ten times the supply chasing the same-sized population - that's the difference between a market where prices have to compete and one where the buyer does.

And prices are already moving

- **Abu Dhabi prices +17.8% in a year** (ValuStrat, Q2 2026) - through a year of regional conflict. Reem +22%, Saadiyat apartments +18%.
- **The week Abu Dhabi outsold Dubai** - last week of August 2026, more value transacted in Abu Dhabi than Dubai for the first time since January 2021.

What a square foot costs

MARKET	\$ / SQ FT	₹ / SQ FT
Monaco, prime	\$5,806	₹21,320
London, prime	\$2,815	₹10,340
Dubai, prime	\$1,270	₹4,660
Abu Dhabi, prime (Saadiyat)	\$885	₹3,250
Wadeem, expected	~\$330	~₹1,200

A standalone villa on an island, at roughly **a third of Abu Dhabi's own prime price** per foot.

Dubai off-plan volume: DLD 2025, residential off-plan share of ~226K sales. Abu Dhabi: ADREC 2025 (23,600 residential transactions, ~67% off-plan). Populations: Dubai Statistics Centre 2025; SCAD 2024. Prime \$/sqft: Knight Frank Wealth Report 2026 (converted at 3.6725); Abu Dhabi prime from ValuStrat Q2 2026. Wadeem psf is an expectation ahead of launch.

Beachfront living, on an island, next to the city.

52M

SQUARE METRES •
MANHATTAN-SIZED

5 min

WALK TO THE BEACH

~₹1,000

PLOT, PER SQ FT

- **Every home is minutes from the beach.** This is an island built around the water - beach clubs, the marina, Surf Abu Dhabi, the cycling track, the trail park. The lifestyle came before the houses.
- **Close to the city, closer to Reem.** Reem Island is Abu Dhabi's financial centre - ADGM's jurisdiction - and the people who work there will want to live here. That's who your neighbours and your tenants are.
- **Manhattan's footprint at 2% of its density.** 52 million square metres, planned low and green. Space is the product.
- **Six tunnels off the island are planned,** including one straight onto the Dubai road.
- **Land at ~₹1,000 a square foot.** A standard Dubai townhouse plot is ~₹2,000.
- **Al Naseem sold out.** The same villa product on this island - people were fighting over units. Al Naseem wasn't gated. Wadeem is.
- **The flagship mall** is opening now, next door.

Island size, density, tunnels and plot pricing as briefed by Modon; "planned" means masterplan intent, not delivered infrastructure.

The developer Abu Dhabi is backing.

OFF-PLAN VILLA
MORTGAGE IN THE UAE

- **Government-backed, ADX-listed.** Modon is Abu Dhabi's master developer - Hudayriyat, Reem, Saadiyat districts. The land, the infrastructure and the product come from the same company.
- **The biggest developer in the country this year** - ₹23 billion sold in six months. Abu Dhabi is openly building to take the growth Dubai has had for a decade, and Modon is the vehicle.
- **The first off-plan villa mortgage in the UAE**, with ADIB - pages 7 and 8.
- **"We want all of our investors to make money from day one."** Modon's chief executive said that publicly this year. No other developer says it, because no other developer prices to make it true.

My own money is with Modon. I bought with them on Reem Island. The process, the paperwork and the communication were what a developer's should be - which is why my name is on this document.

Sales figures as published by Modon and reported by ADREC. CEO quote as reported; source on file.

What we know.

- **Gated villa community on Hudayriyat**, beside the new flagship mall.
- **4, 5 and 6-bed standalone villas**. Not townhouses - standalone.
- **You choose the exterior and the interior** of your villa.
- **Payment plan: 40 / 60** - 40% through construction, expected at 5% every six months, 60% at handover.
- **Mortgage route (UAE residents)**: 5% down, 15% over 18 months, then mortgage the remaining 80%.
- **EOI: D50,000**, by card.

Expected pricing

VILLA	EXPECTED PRICE	IN STERLING	EOI
4-bed standalone	~D8,000,000	~£1.61M	D50,000
5-bed standalone	~D9,000,000	~£1.81M	D50,000
6-bed standalone	~D10,000,000	~£2.01M	D50,000

Prices are expected ranges ahead of launch, confirmed by Modon on launch day. Sterling at 4.98. Plot sizes, built-up areas and the exact plan schedule to follow.

What it costs, by villa.

The standard route, and the one most buyers take: 5% on booking, then 5% every six months to 40%, and 60% at handover. ADM transfer fee of 2% on purchase. No agency fee to the buyer on a developer launch.

VILLA	ON BOOKING (5%)	THEN	PAID BY MONTH 42 (40%)	AT HANDOVER (60%)	ADM 2%
4-bed • D8.00M	D400,000 £80,321	D400,000 × 7	D3,200,000 £0.64M	D4,800,000 £0.96M	D160,000
5-bed • D9.00M	D450,000 £90,361	D450,000 × 7	D3,600,000 £0.72M	D5,400,000 £1.08M	D180,000
6-bed • D10.00M	D500,000 £100,402	D500,000 × 7	D4,000,000 £0.80M	D6,000,000 £1.20M	D200,000

Cash to hold to handover

D3.36M

4-BED • 40% + ADM •
£0.67M

D3.78M

5-BED • 40% + ADM •
£0.76M

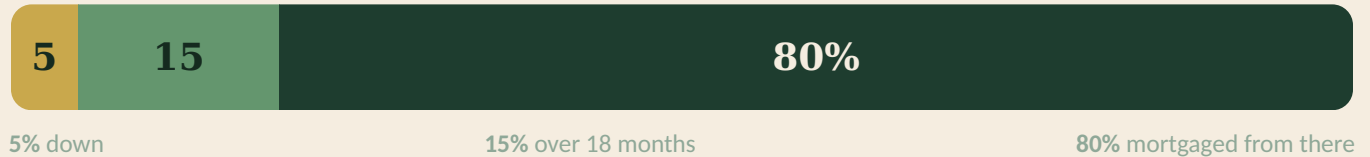

D4.20M

6-BED • 40% + ADM •
£0.84M

Schedule is Modon's expected structure; confirmed instalment dates come with the SPA. Sterling at 4.98.

Off-plan mortgages don't work. Until now.

Every off-plan deal in the UAE has worked the same way: you fund the developer in instalments while it's built, and at handover you either mortgage it or pay the final chunk in cash. On Hudayriyat, with ADIB, Modon has changed that - the first off-plan villa mortgage in the country.

- **Modon wants you to use it.** They're actively encouraging buyers onto this structure - it's how they've priced the launch.
- **UAE residents only.** If you're not a resident it can still be used to secure a better unit - I'll explain how on a call.
- **Two hours to a pre-approval.** The application is simple and fast.
- **Nothing to pay the bank until two years after its first disbursement** - which lands a couple of years after your own first payment. Your cash stops at 20%; the bank funds the rest.

Terms, rates and eligibility are ADIB's and Modon's and are confirmed at application. Illustrative figures on the next page use 3.99% over 25 years. The 40/60 plan remains the standard route and suits most buyers.

The numbers, by villa.

VILLA	5% DOWN	15% (18 MO)	ADM 2%	CASH IN	MORTGAGE 80%	MONTHLY*
4-bed • D8.00M	D400,000	D1,200,000	D160,000	D1,760,000 £0.35M	D6,400,000	D33,746
5-bed • D9.00M	D450,000	D1,350,000	D180,000	D1,980,000 £0.40M	D7,200,000	D37,965
6-bed • D10.00M	D500,000	D1,500,000	D200,000	D2,200,000 £0.44M	D8,000,000	D42,183

Two routes, side by side

VILLA	40/60 • CASH TO HANDOVER	MORTGAGE • CASH IN
4-bed	D3.36M • £0.67M	D1.76M • £0.35M
5-bed	D3.78M • £0.76M	D1.98M • £0.40M
6-bed	D4.20M • £0.84M	D2.20M • £0.44M

Neither route is better - they suit different buyers. 40/60 keeps you debt-free to handover and is open to everyone. The mortgage route is for UAE residents who'd rather hold more villa for less cash, or hold two.

*Monthly at 3.99% over 25 years, illustrative, from first repayment. Mortgage registration 0.25% + D290 and bank fees apply at drawdown and are not included. Sterling at 4.98.

What the growth does to your cash.

5-bed at €9,000,000, held 3.5 years to handover, then valued. Three growth cases: a conservative 6% a year, a base 10%, and 15% - below Abu Dhabi's actual 17.8% over the last twelve months. Net of the 2% ADM on the way in and a 2% agency fee on the way out.

GROWTH CASE	VALUE AT HANDOVER	NET GAIN	RETURN ON CASH • 40/60	RETURN ON CASH • MORTGAGE
Conservative • 6% a year	€11.04M	€1.62M	+43% (+11%/yr)	+82% (+19%/yr)
Base • 10% a year	€12.56M	€3.12M	+83% (+19%/yr)	+158% (+31%/yr)
Recent pace • 15% a year	€14.68M	€5.19M	+137% (+28%/yr)	+262% (+44%/yr)

The gain belongs to the villa, not the financing - it's the same in both routes. The return on cash differs only because the cash in differs: €3.78M on 40/60, €1.98M on the mortgage route. Leverage cuts both ways, and the mortgage buyer is paying interest through construction that isn't in this table.

The honest line: at 6% growth the 40/60 buyer makes 11% a year on cash. At 10%, 19% a year. These are projections, not promises - the register decides.

Growth cases are illustrative. Excludes construction-period interest, service charges after handover, and rental income. Abu Dhabi rents are currently frozen by decree, which caps yield growth but not capital growth.

Two ways out, both real.

1 • Rent at handover

Take the keys, let it. Using the base case (10% a year) the 5-bed is worth D12.56M at handover.

5-BED • D9M • BASE CASE	PER YEAR	YIELD
Gross rent (5% of handover value, indicative)	D628,184	5.0% on value • 7.0% on your price
Less service charge (D8.32/sqft on ~7,500 sqft)	-D62,400	
Net rent	D565,784	6.3% net on your price

2 • Sell before handover

Sell the contract at month 40 - after the last 5% instalment, before the 60%. The buyer takes over the plan; you never fund the 60%.

5-BED • D9M • BASE CASE	AMOUNT
Contract value at month 40 (10% a year)	D12.37M
Your cash in (40% + ADM 2%)	D3.78M
Net gain after 2% agency on exit	D2.93M
Return on cash	+77% in 40 months

Rent is indicative - Hudayriyat villa lettings are new stock and the register will set the level. Service charge from Modon's provisional rate of D8.32/sqft. Resale before handover is subject to Modon's resale rules (minimum paid, NOC). ADM on the buyer's transfer is theirs.

EOI holders choose first.

- **EOI: D50,000 by card.** Refundable if you don't proceed.
- **On launch day, units are allocated to EOI holders first** - plot map, prices, plans - before the public sees them. On Al Naseem that was the difference between getting a villa and not.
- **Launch is imminent.** Modon hasn't published the date; the EOI is what puts you in the room when it opens.
- **I'll walk you through the plot map before launch day**, so you're choosing a plot, not scrambling for one.

WhatsApp me to arrange a call and I'll talk you through it.
