

FRIDAY 1 AUG • SHOOT DELIVERABLES

One Morning. Eleven Pieces.

Every video from the day — what it is, where it goes, what it's cut from

3 YOUTUBE • 8 REELS • + BANKED EXTRAS

The long-form — horizontal, 6–10 min each

1

THE VLOG — “After 6 years, my best mate finally joined me in Dubai”

Shared channel piece • the day’s story

Cut from: ice bath open → pickup → drive chats → surf → JGE reset → both sites → home. Spine line (filmed at beach) opens over ice-bath visuals. Close on Lewis’s unscripted line about finally being here.

2

JGE2 BY WASL — project film

Property deep-dive • both of us

Cut from: JGE2 arrival + joint walk-around + Calum’s 3 solo pieces + Lewis’s 3 solo pieces + b-roll. Prices go on CARDS in the edit, not in speech — keeps footage evergreen.

3

BAYN BY ORA — project film

Property deep-dive • both of us

Same structure as JGE2 from the Bayn footage. Tighter runtime is fine — 40 min on site.

REELS • 8 VIDEOS • VERTICAL

R1	Day in the life — CALUM	Vertical vlog cut, his POV: ice bath → surf → sites → home by 11:30. 45–60s.
R2	Day in the life — LEWIS	Same day, his POV — the “first Friday of my new life” angle. 45–60s.
R3	JGE2 — CALUM	Hook line + best solo beats + walk b-roll. Cards carry numbers.
R4	JGE2 — LEWIS	His fresh-eyes read of the project.
R5	BAYN — CALUM	Hook line + solo beats + b-roll.
R6	BAYN — LEWIS	His read — halfway-between-two-cities angle.
R7	BONUS: “Why we both bought Tara Park”	Cut straight from Drive 2 car audio + cutaways. Talking reel.
R8	BONUS: “What we’d buy at every price point”	Drive 3 — the 500K→1M→2M→3M→5M→10M ladder. The most save-able clip of the day.

Also captured — hold in the bank

- ◆ Moving-stories chat (Drive 1) — future talking reel or podcast clip
 - ◆ Golden Visa jacuzzi callback beat — 10s stitch for visa content
 - ◆ Surf hook line — evergreen lifestyle opener for future videos
 - ◆ Thumbnail frames — every location, both of us, singles + together
-

EDIT SPECS

- ◆ Export: 4K · 30fps · high bitrate · AI enhance OFF · Smart HDR OFF
- ◆ Colour: correct per location (indoor warm-up, harsh sun highlights down)
- ◆ Reels vertical 9:16 · YouTube horizontal 16:9 — shoot list covered both
- ◆ Albums: VLOG / DRIVES / JGE2 / BAYN / BROLL — file everything same day
- ◆ Priority order: R7 + R8 first (car chats age fastest socially), then vlog, then project films
