

Your Investment, **Six Months In.**

Pinewood Estate Homes · Unit S-TH030

4 Bed Townhouse · 4,233 sqft BUA · ~3,000 sqft plot · Jumeirah Golf Estates district

Prepared for Sameer

YOUR POSITION

Where you stand

Purchase price (Jan 2026)

₪7,077,777

Entry price per sqft

₪1,672

Payment plan

80 / 20 to handover

Paid to date (2 of 9)

20% · ₪1,415,555

Next instalment

10% · 1 Sep 2026

Final 20% at handover

Dec 2028

Registered on Oqood / pre-title deed with DLD · developer J G E Development LLC · not mortgaged

You are 20% in, on schedule, in the district's newest primary release - and the market has moved since you signed.

Three signals, all pointing the same way

1 • PINWOOD PRIMARY RELEASES AFTER YOURS

15 sales • D1,649–1,995 / sqft • median D1,897

Every developer release since March has priced above your D1,672/sqft entry. Headline prices (median D8.84M) partly reflect larger plots in later phases - but on a like-for-like per-sqft basis the developer is selling the same product for more than you paid.

2 • THE NEAREST COMPARABLE: JASMINE LANE (ELIE SAAB)

18 resales in 2026 • median D1,924 / sqft

Smaller 3-beds on ~1,500 sqft plots - half your plot size - yet the resale market pays D1,924/sqft there. Your entry sits ~13% below the district's proven resale level, with double the land.

3 • JUMEIRAH GOLF ESTATES DISTRICT INDEX

+4.96% last 6 months • +4.57% last 3

The 12-month figure (-5.9%) captures the conflict dip; the recovery since is clear and consistent. JGE remains one of Dubai's few genuinely supply-capped premium districts - golf frontage cannot be rebuilt.

All Pinewood transactions to date are primary (developer) sales - no resale market exists yet. First resales typically set the premium benchmark as handover approaches.

What the numbers could look like

Assuming ~10% annual district appreciation (range shown 8–12%) over the ~3 years from purchase to handover:

Projected value at handover	£9.4M	range £8.9M – £9.9M
Projected gain vs purchase	+£2.3M	range +£1.8M – +£2.9M
ROI on purchase price	+33%	range +26% – +41%
ROE on cash deployed (80%)	+41%	range +32% – +51%

RENTAL, ONCE HANDED OVER

£495,000 / year

~7% on your purchase price • range 6–8% = £425K–566K • ≈ £41K/month

Projections, not promises: based on stated assumptions and current district data. Figures exclude 4% DLD and transaction fees. Markets move both ways - the conflict dip this year is the proof.

Bought well. Positioned better.

Your entry sits below every developer release since, and below the district's proven resale level - in a supply-capped premium location that is recovering strongly post-conflict. The sensible play is patience: let the payment plan run, let the district re-rate into handover.

I track this market daily and will send these updates as the picture moves.
