

Cresswell Views • Unit 107 - Where Every Pound Went

Purchase price £1,580,000 • Christopher Cummings • Obligations fixed in dirhams; £ costs move with the exchange rate

You agreed right at the year's 5.08 peak; the rate then slid as low as 4.83 by June before recovering to 4.98 today - so every later payment bought fewer dirhams per pound than the day the deal was struck. That slide, not any added fee, is the whole story. Silver lining: today's 4.98 is the best rate since February - topping up now is cheaper than it would have been all summer.

MILESTONE (PER SPA)	£ DUE	YOUR PAYMENTS	RATE	£ PAID	£ APPLIED
Initial booking	25,000				
Transfer • 2 Feb			5.045	991.03	5,000
Transfer • 2 Feb			5.045	3,964.13	20,000
Settled in full					25,000 ✓
Booking completion (10% = £158,000 total)	133,000				
Transfer • 18 Feb			5.001	26,593.46	133,000
Settled in full - 10% booking complete					133,000 ✓
DLD registration & fees	68,200				
Transfer • 18 Feb			5.001	13,636.65	68,200
Settled in full					68,200 ✓
1st instalment • 10% (due 15 Apr)	158,000				
Transfer • 9 Jul			4.974	12,867.96	64,000
Cash • 9 Jul			as exchanged	20,000.00	94,000
Settled in full - everything paid to here					158,000 ✓
2nd instalment • 5% (due 15 Aug)	79,000				
Cash in hand • converting now (~4.88 cash rate)			~4.88	5,000.00	~24,400
Top-up needed: ~£54,600 = £11,000 at today's 4.98					~24,400

Why "£90K" became "£94K": the full schedule to this point is £463,200 - at late January's 5.08 that was ~£91,200, the "£90K" we spoke about. At today's 4.98 the same dirhams cost ~£93K. Nothing added; the pound moved. Your running total of £83,053.23 is exactly right, and after the £5,000 converts, a **top-up of roughly £10,900-11,200 clears this instalment** (dated 15 Aug - prompt payment keeps everything clean). Exact figures confirm against the developer's statement; any difference adjusts this sheet, not your pocket.
