Total cash required day one	733,870

Mortgage registration is charged on the loan amount, not the price. Your bank may add an arrangement fee (typically up to 1% of the loan, sometimes waived) and a property valuation charge (≈₪2,500–3,000) — these vary by lender and rate package, so they are quoted separately by the bank. All figures indicative until documents confirm.

In plain terms: **₪733,870 gets you the keys**. ₪550,000 of that is your equity in the property from day one — ₪183,870 is the total cost of buying. The bank carries the remaining ₪2,200,000.
